SUPERNATURAL – GEN. 32:28-30
DATED 14th – 20th NOVEMBER, 2022

Thank God for another opportunity to further give updates on the series of activities that have happened since you received our last newsletter.

Now the stage is set and the convention is almost at hand. The preparation has almost reached a crescendo.

In the course of the last three months, we have embarked on strategic planning, intensive prayers and aggressive mobilisation across the various districts within Nigeria and we are still on that drive.

We have also achieved substantially our broad vision and programme for this year's annual convention by the grace of God.

As you can see from the pictures, we are taking steps in the right direction and we can even achieve more with your prayers, cooperations, financial assistance and supports. Please, we would welcome support in any of the areas you can provide support and sponsorship.

By the special grace of God, the convention promises to have the best of camping experiences in the area of spiritual, accommodation, transportation, security, water system, electricity, welfare, program spacing and hubs transmission system.

The God of Supernatural Encounter has been faithful in helping us on all the projects we prayerfully embarked upon and below are the progress report and percentages done as at date.

1. Construction of National Office, Ajebo (Project NOA) – 75%
2. Construction of 750,000 litres of underground water reservoir – 90%
3. Supply and installation of Industrial Cooling Fan at the auditorium - 70%
4. Complete revamping of the Jehovah Shamma Hostel – 80%
5. Construction of 85 units of Market stalls in the camp – 60%

In addition, we would also like to encourage you to begin registration in earnest as well as mobilise other persons within and without the Foursquare organisation to register online on the link provided already.

We are trusting God that as we take giant steps towards this year's convention, we would be counting on your support.
